

Océ Mobile Printing from your iPad®

Océ Publisher Mobile

Print from any mobile device

Hassle-free printing from a smartphone or tablet? With the Océ Publisher Mobile App for iPad, your employees can print at any time, and from any mobile device connected to your network.

HOW CAN YOU MAKE FLEXIBLE WORKING EVEN EASIER

You would like to offer your employees flexible working opportunities, including mobile printing. Many office workers with a mobile device cannot use it for printing, although they would like to. Mobile printing should be just as easy as printing from a PC, and it should also occur within the existing IT infrastructure.

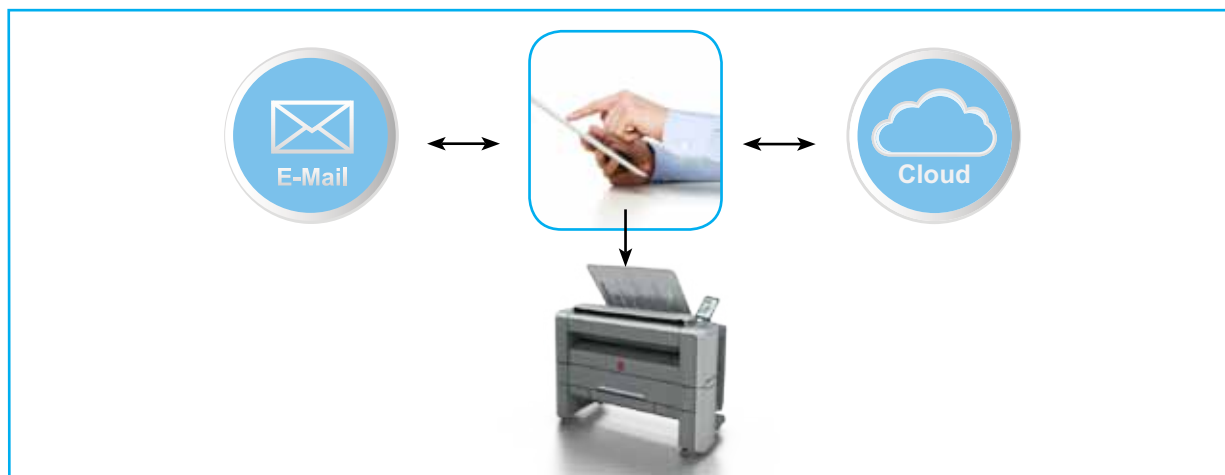

HASSLE-FREE PRINTING, ON THE GO

With the Océ Publisher Mobile App for iPad, your staff can print directly to an Océ wide format printer from a smartphone or tablet - from any location within reach of the WiFi router part of your organization's network. While using their mobile devices they can send a print job directly to an Océ wide format printer.

MORE OPTIONS FOR BUSY PROFESSIONALS

Now your employees can discuss a change, make an annotation, use their mobile devices or tablet to connect to the cloud and send a print request to an Océ wide format printer via Océ Publisher Mobile App for iPad.

Océ Publisher Mobile App for iPad is an application that enables you to easily plot from an Océ system with your iPad device. Océ TCS, TDS, Océ ColorWave® and Océ PlotWave® systems are supported. Supported files for printing include PDF, PLT, TIFF and DWF.

INCREASED PRODUCTIVITY

Mobile printing means fewer delays in document printing. Sometimes it is easier or more comfortable to view information on paper rather than on screen, for example when discussing large format drawings or detailed technical documents. Océ Publisher Mobile App allows your employees to print documents if, and when, they need them.

THE ADVANTAGES OF OCÉ PUBLISHER MOBILE APP FOR YOUR ORGANIZATION

- Work more flexibly: print from anywhere within your existing network environment
- Print from iPad mobile devices via a Wi-Fi router
- Work more efficiently
- Have your prints available more quickly

Downloading the Océ Publisher Mobile App is easy and free of charge. Open the Apple® Store online on your iPad or in the iTunes® application program and search for “Publisher Mobile” or scan the QR code below.
