Printer/Ink Compatibility

Asphalt Art is printable on UV-curable and latex inkjet printers. As aluminum foil will hold its shape, special attention needs to be paid to the edges while loading and printing to prevent head strikes.

Application Instructions

Please refer to the Asphalt Art Application guide, which you can download off the website: www.asphaltartusa.com.

Durability

Asphalt Art can be expected to last 3-12 months outdoors, without significant degradation provided the installation instructions are properly followed.

The condition of the graphic may degrade faster than the actual material, depending on the surface and type of traffic (pedestrian or vehicle) it is exposed to. Exposure to excessive vehicle or machinery traffic, physical wear and tear, severe weather, and vandalism will severely limit life expectancy.

Warranty

Asphalt Art products are warranted to be free of defects in material and manufacture at the time of shipment and to meet the specifications stated in the Technical Specifications Sheets. Asphalt Art will replace or refund the price of any Asphalt Art materials found to not meet their product specifications. In no case shall Asphalt Art be liable for any direct, indirect, or consequential damages, including labor or non-Asphalt materials charges. The determination of the suitability of this product for any specific use is solely the responsibility of the user. No representations, guarantees, or warranties of any kind are made to the accuracy or suitability for specific applications.
