Main Applications

- Color photographic prints.
- Indoor posters.

Printer/Ink Compatibility

ID8G is recommended for use in most photographic and display graphics inkjet printers, including Epson® Ultra Chrome and K3 series, Vivid Magenta series, Canon imagePROGRAF series as well as Hewlett Packard® Z series printers. This paper is also compatible with the HP PageWide printers.

Finishing Tips

Prints may be laminated with pressure-sensitive or low-melt thermal laminate for additional scratch and moisture protection.

ICC Profiles

ICC Color profiles help improve image quality and optimize ink limits for improved dry-time, wide color gamut, and accurate color matching.

Important

Printer and driver settings need careful setup to help ensure the best performance. Appropriate ink loads must be set for the ink/printer combination being used.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.
