

PHPR7 PREMIERE COLLECTION

Satin Photo Paper for the ColorWave Series Printers

PRODUCT DESCRIPTION

PHPR7 is a 7 mil satin resin-coated photo paper and is designed for use with CrystalPoint technology in the ColorWave series printers and traditional aqueous printing systems.

SPECIFICATIONS

Physical properties*

- **Caliper:** 7 mil
- **Basis Weight:** 170 gsm
- **Opacity:** 86%
- **Lab** = 91.2, a = -.04, b = -2.4

*Target Values

Features

- Instant dry
- Outstanding image quality

Recommended Storage Conditions and Shelf Life

- **Temperature:** 55-90 °F (20-50 °C).
- **Relative Humidity:** 30-70%
- **Shelf life:** Up to two years with proper storage
- Allow material to stabilize to room conditions 24 hours before use.

Environmental, Health, and Safety

- No Material Safety Data Sheet required.
- Waste not suited for recycling.

Main Applications

- Indoor display graphics/POP
- Posters
- Presentations

Finishing Recommendations

For best results from printing with the ColorWave series printers, Cold laminates (<140 °F) are advised and a laminator with a soft rubber roller is preferred.

For best results with traditional aqueous printing systems, you can either use cold laminates or low temperature laminates (<200 °F).

Hot film laminates, liquid laminates, and transfer laminates are not recommended.

This information is presented as a general guide and is not a performance guarantee. The user should determine prior to use the suitability of the material for the specific application or purpose.

Printer/Ink Compatibility

PHPR7 is recommended for use with CrystalPoint technology in the ColorWave series printers and traditional aqueous printing systems.

Profiles

On the ColorWave series printers, please select the PHPR7 profile. For traditional aqueous inkjet media, please choose Satin Photo Paper 190 gsm.
