

ID7S

7 mil Satin Photo paper for Aqueous Inkjet Media for use with dye and pigment ink on thermal and piezo inkjet printers.

PRODUCT DESCRIPTION

ID7S is a 7 mil Satin resin coated photo paper designed for aqueous inkjet printers, thermal and piezo. Excellent image quality, instant dry coating allows for exceptional detail on prints.

SPECIFICATIONS

Physical Properties*

- **Basis Weight:** 170 gsm
- **Caliper:** 7 mil
- **Opacity:** 86%
- **Whiteness:** 85 CIE
- **Lab =** 91.2, a = 0.4, b = 2.4

*Target Values

Features

- Excellent image quality
- Instant dry
- Exceptional detail

Recommended Storage Conditions and Shelf Life

- **Temperature:** 50-86 °F (10-30 °C).
- Store in original packaging and plastic bag. Best stored in cool dry area.
- Storage Humidity Range 20% non-condensing.
- Repack opened rolls when not in use.
- Up to one year at conditions noted above.
- Allow material to stabilize to room conditions 24 hours before use.

Environmental, Health, and Safety

- No Material Safety Data Sheet required.
- Waste not suited for recycling.

Main Applications

- Indoor Posters
- Photographic displays

Printer/Ink Compatibility

ID7S is recommended for use in the aqueous pigment and dye printers.

Media Handling

To avoid smudges and marks on your finished print we recommend handling the coated surface while wearing cotton gloves. Store unused media in original packaging, vertically. For best results let media acclimate to printing room conditions for 48 hours before use.

Finishing Recommendations

For best results from printing the ID7S you can use either low melt or pressure sensitive laminates. For best results print should dry 24 hours before lamination.

Important

Printer and driver settings need set up to help ensure the best performance. Appropriate ink loads must be set for the ink/printer combination being used.

ICC Color Profiles

ICC color profiles can improve image quality and optimize ink limits for improved dry time, wider color gamut, and more accurate color matching. For printer driver choose the Satin Photo paper setting.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.
