**Application Instructions**

Please refer to finishing section below.

**Finishing Recommendations**

5C1SG can be laminated with pressure sensitive laminates when printed with the ColorWave Series printers. You can use thermal laminates with other aqueous inkjet technology.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.

**Color Profiles**

For the ColorWave Series printers you can use the 5C1SG OMP profile. All other aqueous technology printers would select a satin photo paper profile.
