Océ FCNS04
CLEAR POLYESTER FILM (WITHOUT SIDE STRIPE)
AQUEOUS INKJET MEDIA

PRODUCT DESCRIPTION
A 4 mil optically clear film without side stripe for overlays, GIS mapping applications and window and door graphics. Océ FCNS04 has an inkjet receptive coating and exceptional optical clarity and high black image density that makes it into suitable film positives for screen printing.

SPECIFICATIONS

PHYSICAL PROPERTIES*
• Caliper - 4 mil nominal
• Smoothness - 5
• Haze - 2.5%
• Gloss (60°): 90
* Target Values

FEATURES
• Optically clear
• Universally compatible

• Repack opened rolls when not in use
• One year at conditions noted above
• Allow material to stabilize to room conditions 24 hours before use.

ENVIRONMENTAL, HEALTH & SAFETY
This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.

PRINTER/INK COMPATIBILITY
Océ FCNS04 is recommended for use with dye and pigment inks in most of today’s inkjet printers. For a complete compatibility chart on our website go to: www.csa.canon.com

FINISHING RECOMMENDATIONS
Océ FCNS04 can be overlaminated with both thermal (max. 185°F) and pressure sensitive laminates. Make sure that prints are completely dry prior to laminating. Cold pressure-sensitive adhesives are recommended for mounting.
Creating global leadership in printing

Canon and Océ join forces to create the global leader in the printing industry. For our customers this combines Canon and Océ technology with the support of the Océ direct sales and service organizations. Look to the new Canon-Océ combination for:

- Enterprise printing in the office and corporate printroom
- Large format printing of technical documentation, signage and display graphics
- Production printing for marketing service bureaus and graphic arts
- Business services for document process outsourcing
