- Opacity 92%

*Target Values

Features

- Excellent durability
- Easily repositionable fabric
- Vivid color
- No fray
- Kiss cutting acceptable

Recommended Storage Conditions and Shelf Life

- Temperature 55°-90° F. (20°-50° C).
Relative Humidity 30-70%
- Shelf life-2 years with proper storage
- Allow material to stabilize to room conditions 24 hours before use
- No PVC
- Non-Toxic

Environmental, Health & Safety

- No Material Safety Data Sheet required.

Main Applications

- Wallcovering Borders, Murals
- Wall Advertising Messaging
- POP
- Event Messaging

Finishing Recommendations

Can be liquid laminated for longer outdoor longevity. You can contour cut (kiss-cut) Wall Tex easily.

This information is presented as a general guide and is not a performance guarantee. The user should determine prior to use the suitability of the material for the specific application or purpose.

Printer/Ink Compatibility

Wall Tex is recommended for use with UV, UVgel, Latex and Eco-Solvent printers. We always recommend testing your print technology for the full application.

Processing Tips

- Outside of the roll is side to be printed.
- Print in a dust and dirt free environment
- 55°-90° F. (10°-35° C), 20-90% R.H.

Profiles

ICC color profiles will improve image quality and optimize ink limits for improved drytime, wider color gamut, and more accurate color matching.
