

OCÉ SMART

100% Smooth Fine Art Cotton Paper for use with Aqueous, UVgel, UV and Latex printers

Product Description

Océ SMART Smooth Fine Art is a 15.5 mil, 190gsm cotton paper specifically for high quality printing. This paper contains a completely matte surface, and allows inks to become part of the coating. This paper is OBA free, Acid free and has a PH of 8. Excellent image quality with excellent color gamut and lends itself to warm black and white prints as well. Compatible with UVgel, UV, and also Aqueous printers.

SPECIFICATIONS

Physical properties*

- Caliper: 15.5 mil
- Basis weight: 190 gsm
- Whiteness: 84%
- Material: 100% Cotton
- PH Value: 8
- Acid Free: Yes

*Target Values

Features

- Excellent image quality
- Instant dry
- Exceptional detail
- Wide color gamut

Recommended Storage Conditions and Shelf Life

- Temperature 50°-86°F. (10°-30°C).
- Relative Humidity Printing Range: 30-70%
- Repack opened rolls when not in use.
- One year at conditions noted above.
- Allow material to stabilize to room conditions 24 hours before use.

Environmental, Health & Safety

- No Material Safety Data Sheet required
- Waste not suited for recycling

Main Applications

- Art reproduction
- Photographic displays
- Portraits

Printer/Ink Compatibility

Recommended for use in the UVgel, UV, Latex and Aqueous dye and pigment printer technologies

Media Handling

To avoid smudges and marks on your finished print we recommend handling the coated surface while wearing cotton gloves. Store unused media in original packaging, vertically. For best results let media acclimate to printing room conditions for 48 hours before use.

Finishing Tips

Final prints can be mounted and framed. Be careful to handle paper with gloves to avoid any impressions in the coating.

Important

Printer and driver settings need careful set up to ensure the best performance. Appropriate ink loads must be set for the ink/printer combination being used.

Color Profiles

ICC Color profiles will improve image quality and optimize ink limits for improved dry time, wider color gamut, and more accurate color matching.

This information is presented as a general guide and is not a performance guarantee.

The user should independently determine prior to use the suitability of the material
