OCÉ 8GPLYA

8 mil Glossy Polypropylene Film with Permanent Adhesive Aqueous Inkjet Media for use with dye and pigmented inkjet printers.

Product Description

Océ 8GPLYA is an 8 mil inkjet coated polypropylene film with a permanent adhesive. This glossy polypropylene can be used for short run labels, durable posters, indoor signage. The aqueous coating makes this compatible with both dye and pigmented inkjet printers. Can be laminated with pressure sensitive laminates to increase durability.

SPECIFICATIONS

Physical properties*
- Basis Weight - 150 gsm
- Caliper - 8 mil (total weight with psa)
- Whiteness - 85 CIE
- Opacity - > 90%
- Gloss Level - 90 @60°
- Flame Rating - Class B ASTM E-84

*Target Values

Features
- High gloss finish
- Solvent Acrylic Permanent Adhesive
- Economical

Recommended Storage Conditions and Shelf Life
- Store in clean, dry area away from direct sunlight
- Temperature 60°-86°F. (10°-30°C). Relative Humidity 50% and Temperature range 70° F.
- Store in original packaging and plastic bag. Best stored in cool dry area.
- Repack opened rolls when not in use

One year at conditions noted above
- Allow material to stabilize to room conditions 24 hours before use.

Environmental, Health & Safety
- No Material Safety Data Sheet required.
- Waste is not suited for recycling.

Main Applications
- Indoor Posters
- Trade Show Signage
- Short run labels

Printer/Ink Compatibility
Océ 8GPLYA is recommended for use with the aqueous pigment and dye printers by Canon, HP, Epson. It can also be used in the Océ ColorWave 700® printer with a 2” core adapter, sending prints through external output.

Important
Printer and driver setting need set up to ensure the best performance. Appropriate ink loads must be set for the ink/printer combination being used.

Color Profiles
ICC color profiles will improve image quality and optimize ink limits for improved dry time, wider color gamut, and more accurate color matching. For Pigmented UV printers you can use the Heavyweight coated paper setting. For dye ink sets you can choose a high quality glossy photographic paper setting.

Media Handling
To avoid smudges and marks on your finished Océ 8GPLYA print, we recommend handling the coated surface while wearing cotton gloves. Store unused media in original packaging, vertically. For best results let media acclimate to printing room conditions for 48 hours before use.
OCÉ 8GPLYA

8 mil Glossy Polypropylene Film with Permanent Adhesive Aqueous Inkjet Media for use with dye and pigmented inkjet printers.

This information is presented as a general guide and is not a performance guarantee.

The user should independently determine prior to use the suitability of the material for the specific purpose.
