CANON SEE IMPOSSIBLE

SERIOUS POWER

Océ PlotWave 900 Printing System

Steadfast reliability for productive printing

Where do you find the kind of serious power that will handle your high-volume production printing cost efficiently? And deliver outstanding image quality? There is only one choice. The Océ PlotWave® 900 print, copy, and scan system. It is the next evolution in our award-winning Océ TDS800 Pro system with proven Océ technologies. It gives you serious power to help you build the world around us.

High-volume throughput

Today the most advanced architectural, engineering, and construction companies use Océ systems to build the world around us. As a leader in engineering printing systems, we understand what it takes to get the job done in high-pressure environments. The Océ PlotWave 900 printing system delivers incredibly fast output from a single printing system.

Direct earning power

The Océ PlotWave 900 printing system was built to run in high-volume and high-stress environments. Hard-wearing parts have been designed to last for many years, and when you purchase an Océ service contract with your Océ PlotWave 900 printing system, you can have confidence that your investment is protected and that you will enjoy unparalleled up-time operation, making this system a safe long-term investment. And the more you print, the faster you will earn back your investment.

Outstanding print quality

The Océ PlotWave 900 printing system delivers exceptional reproduction quality, thanks to its 600 dpi print quality, advanced image processing, and Océ Copy Press technology. The system produces crisp line drawings, clear grayscale reproduction of color originals, distortion-free photo enlargements, and smoothly rasterized documents without moiré artifacts. Improvements in the toner unit help ensure that solid black areas are printed consistently over time.
